

Purpose

To designate those standards that are acceptable for project design.

Policy

All projects administered by the Utah Department of Transportation (UDOT) shall be designed to meet the existing and future traffic needs, with emphasis on safety, durability, and economy of maintenance. As a minimum, all applicable UDOT policies and procedures, standard and supplemental specifications, standard drawings, manuals of instruction, and guidelines must be followed. In addition, the latest edition of the following design standards must be followed.

1. A Policy on Geometric Design of Highways and Streets by AASHTO
2. A Policy on Design Standards – Interstate System by AASHTO
3. Manual on Uniform Traffic Control Devices for Streets and Highways by FHWA
4. Roadside Design Guide by AASHTO
5. Standard Specifications for Highway Bridges by AASHTO

Any deviation from these guidelines would require a written approval from the appropriate division.
